-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Detailed Action

Claims Objection

Claims 1-5 are objected to because of the following informalities:

(1) In claim 1, line 5, "a cutting edge" should read --the cutting edge-- since it refers to the one previously cited.

(2) In claim 4, line 2, "a trigger" should read --the trigger-- since it refers to the one previously cited.

Appropriate correction is required.

Claims Rejection - 35 U.S.C. 112, second paragraph

1. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

2. Claims 1-5 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

In claim 1, line 10, it is not clear what element "re-engages the locking assembly". Further, what does "the locking assembly" refer to? Does it refer to "self-locking release assembly"?

Claims Rejection - 35 U.S.C. 102(b)

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 1-5 are rejected under 35 U.S.C. 102(b) as being clearly anticipated by Osterhout et al. (U.S. Patent No. 4,523,379).

Osterhout et al. disclose a knife comprising a handle (12) having a distal portion; a blade (14) secured to and extending from the distal portion, the blade (14) having a cutting edge; a blade cover (16) that is biased to cover the cutting edge and a portion of a side of the blade (see Fig.1), and moves between an operating position in which the blade (14) is exposed (see Fig.3B) and a safety position in which the blade (14) is covered (see Fig.3A); a manually triggered self-locking release assembly (26,28), internal to the handle (12), that unlocks the cover (16) when a trigger (32) is operated so that the cover (16) can be retracted, and the cover (16) automatically locks in place (see column 4, lines 53-59) when the cover (16) is returned to the safety position; the cover (16) retractable linearly into the handle (12), the cover (16) and the trigger (32) biased by springs (30), and the trigger (32) located on an inferior surface of the handle (12) as claimed.
